

SMOOTH, SMOOTHER, BOOGIE WHEELS

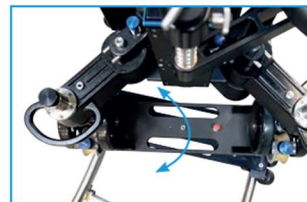

The Boogie Wheels (code 300743) with its unique and flexible design, will keep any dolly steady on straight or curved tracks. It gives smooth ride even on old tracks or rough track joints. Just place the dolly into the Boogie wheel trays and you are ready to go.

4 pairs of individually articulated skate board wheels (24 wheels in total) are located underneath a swiveling platform which accommodates any dolly.

A total of 24 swiveling wheels gives smoothest ride on any dolly track with a gauge of 62cm (24,5").

Features:

- 8 x 3 SkateBoard wheels (24 in total)
- Articulated wheels combined with swiveling tray
- offset position of Skateboard wheels
- 2x trays with swiveling platform with precision bearings.
- Adjustable tray (wheel clamp) for different dolly wheel diameters (200-280mm)
- also for tight curves from 1,5m / 5ft. radius
- Tray with three points of contact with the dolly wheel for perfect and secure fit.
- Lightweight aluminium

adjustable for dolly wheels from 20-28cm
